

SYNTHETIC TURF BRUSH

<http://tiny.cc/syntheticurfbrush>

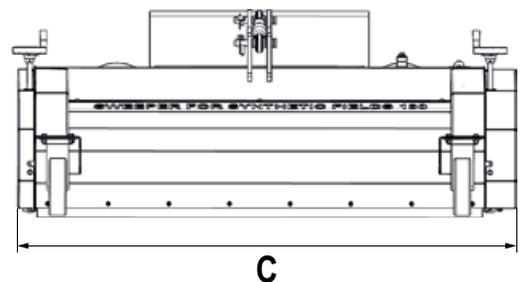

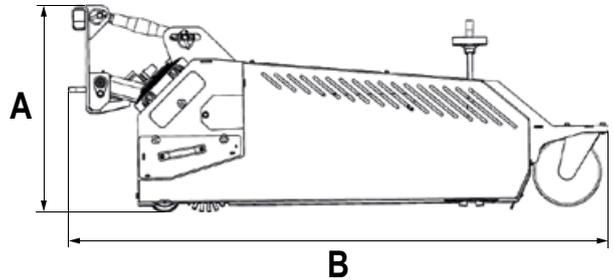

FEATURES & BENEFITS

- **Effective rotary brush**

Regular maintenance of synthetic turf is necessary to keep playing surfaces clean, bacteria-free and allow water infiltration. The MultiOne synthetic turf brush employs a highly effective synthetic rotary brush to remove debris from the turf.

The fully hydraulic system performs the cleaning tasks efficiently, economically and with very low impact footprint in all artificial surfaces.

Note: the floating boom valve on machine is required.

Model	Height (A)	Length (B)	Width (C)	Weight	Code
Synthetic Turf Brush	50 cm (19.6 in)	160 cm (63 in)	148 cm (58.2 in)	350 kg (771 lbs)	C891340
